Hicksville, N.Y. 11801
Att: Bob Stimell

Dear Bob:

As we enter the New Year, I wanted to thank U.S. Coffee for the things you do to make our life a little easier so that we can devote time to building and increasing our business.

The caring service, cost factors and extensive product line is saving us time and money.

This is especially so with the addition of your office supply division. When you told me we would save money from our past supplier (which also was the lowest price from any company), I was originally dubious, but you came through again and we are now also saving money on our office supplies.

I recommend U.S. Coffee highly to any company.

Yours truly,
